

## NEW START DATE

# Commitment: Pathway to Adventure

Commitment is the backbone, strength, and driving force of achievement - the triumph of possibility over resignation, of creation over change, of your word and deed over all the practical reasons why “it can’t be done”.

Commitment begins with our speaking and listening. It is our word that has the power to create a future and alter what’s possible, leaving us fully in accord with our own possibilities and those of others.

Commitment is the difference between involvement and accountability. It is taking responsibility before the fact rather than after the fact. In this seminar you will learn the direct impact of giving and keeping your word and master the kind of speaking and action that delivers on what you intend.
